

WRENCHES

What's on your belt?

LITTLE FOCUS

THE FOCUSING WRENCH DESIGNED FOR THE LIGHTING PROFESSIONAL.

Save time and space with this versatile focusing wrench designed specifically for the lighting professional. The wrench's many openings help quickly tighten or loosen clamps and fixtures, lock the tilt, move lights, open road cases and many other tasks.

The Little Focus wrenches are available in three sizes, including a handy pocket size, to allow you to choose the torque that best fits your needs. The Little Focus is the focusing wrench for all your stage lighting needs.

What's on your belt?

- Easily fits standard bolt heads and wing nuts found in the lighting industry
- Bolts: Square $\frac{5}{16}$ " and $\frac{1}{2}$ "; Hex $\frac{3}{4}$ "
- Wing nuts
- Sleek yet solid design
- Made from durable stainless steel
- Includes an opening to attach a lanyard
- Made in the U.S.A.

	Weight	Length

Little Focus 5	4.9 oz.	5"
Little Focus 6	5.3 oz.	6"

* Wing nut slot not available

APOLLO BTS WRENCH

Save time and space with a 2-in-1 wrench designed specifically for the lighting professional. The adjustable end's wide capacity jaw allows you to work with more fastener sizes and the openings on the other end help eliminate carrying multiple wrenches. The Apollo BTS wrench is the wrench for all your stage lighting needs.

What's on your belt?

- Easily fits standard bolt heads found in the lighting industry
- Bolts: Square $\frac{5}{16}$ " and $\frac{1}{2}$ "; Hex $\frac{3}{4}$ "
- Sleek yet solid design
- Weight: 10 oz.; Length: $7\frac{13}{16}$ "
- Made from drop forge steel with a chrome-plated finish for superior corrosion and rust resistance
- Made in the U.S.A.
