generator. These are the exact figures that we charged Barnum & Bailey. If you decide to make the change at Columbus, you can easily figure out what the cost would be. We would suggest that you return the generators, and have Mr. Dunn come on to Chicago, and make the changes under our supervision. We will assure you Mr. Dunn will gain more knowledge, and save you the cost of the change. We prefer having Mr. Dunn make the change in our shop, for there are a great many important points he can learn. We will give him an assistant, so it will take no more than two weeks time for the entire job. We would suggest that if this matter is not plain to you, that you consult with Ringling Bros.

Awaiting your reply, and thanking you for your valued order, we remain

Yours truly,

The Bolte & Weyer Co.,
