

BE PREPARED!

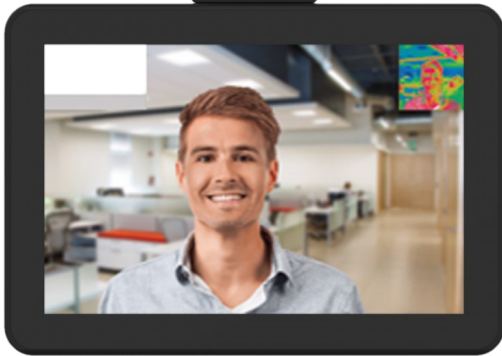

STEP ONE: Use thermal imaging cameras to quickly scan larger groups

Thermal security camera

STEP TWO: Once identified, confirm with a secondary scan

Aurora Tauri TTS-10
10" tablet w/ reversible
thermal camera

STEP THREE: If confirmed, verify with a medical-grade device

ARE YOU READY?

A “new normal” will require changes to how you welcome clients, guests & visitors back to your facility; a multi-layered approach will ensure you are taking the necessary steps to protect your team, your guests & your reputation.

Embassy Services can design & install thermographic systems to protect your investment and minimize downtime in a post-CV19 economy.
